

Certificate in Orthodontic Dental Nursing

National Exam Board for Dental Nurses

Overview:

Designed to support orthodontists who employ specialist dental nurses, the NEBDN certificate enables the specialist dental nurse to achieve a post qualification and develop specialist skills necessary within an orthodontic setting.

Objectives:

To provide a foundation qualification enabling progression to the Diploma in Orthodontic Therapy.

Who should attend:

Qualified Dental Care professionals employed within an orthodontic setting.

Duration:

Sixteen weeks – evening class

Outline:

Reflecting the Certificate in Orthodontic Dental Nursing syllabus this programme will include

- Clinical orthodontics
- Oral health
- Cephalometric tracing
- Study casting
- Assisting with the removal of orthodontic appliances.
