

Care Planning and Record Keeping

Aims and Objectives:

To develop the knowledge and understanding of care staff in relation to planning and recording care

Learning Outcomes:

Following this study day the health care worker will:

- Have an understanding of the nursing process
- Be aware of different models of care in relation to the planning process
- Know of the importance of person centred care
- Be able to explain the involvement of the multidisciplinary team, the resident and significant others
- Know of the importance of accurate recording of any reports concerning the resident's care

Target Group:

Key workers who are involved in the care planning process

Duration:

One day
