

Managing Challenging Behaviour

Aims and Objectives:

To provide candidates with information that will challenge their beliefs and subsequent care delivery as they deal with individuals who display challenging behaviour

Learning Outcomes:

By the end of this study day the candidate will:

- Be aware of different kinds of challenging behaviour and the causes
- Display a knowledge of risk assessment and its importance
- Be aware of approaches, both good and bad, to manage challenging behaviour
- Identify types of abuse and consider the concept of 'restraint'
- Have an understanding of some common issues relating to rights
- Using the topic of 'communication' explore feelings generated when dealing with challenging behaviour
- Introduction to breakaway techniques

Target Group:

Health and Social care workers from any environment

Duration:

One day
