

Roles and Responsibilities

Aims and Objectives:

To enhance the practice of the health care worker so that the service user may benefit from care delivery within a positive care environment

Learning Outcomes:

Following this study day, the health care worker will:

- Have examined their own personal values in the context of care delivery
- Discussed and reflected on any conflict in values between themselves and the establishment or service user
- How personal values influence practice
- Policies and legislation relating to values and principles
- The day to day role of the health care worker and the manner in which they should carry out that role

Target Group:

Health and Social Care workers from any environment

Duration:

One day
