

Vaccination / Anaphylaxis Course

Aims and Objectives:

To update the registered practitioners knowledge thereby allowing them to safely administer the influenza vaccination to residents

Learning Outcomes:

By the end of this study day the candidate will:

- Have an increased understanding of current influenza protocols
- Know how to safely store vaccines
- Review the procedure of vaccination
- Understand the possible effects of vaccination
- Have had an opportunity to practice resuscitation

Target Group:

Registered nurses, within care homes, who administer the influenza vaccination

Duration:

Half-day refresher
