

# Working with Individuals with Autism

## **Aims and Objectives:**

To provide participants with an understanding of the 'Autism Spectrum Disorders' and suggest some relevant working strategies

## **Learning Outcomes:**

Following this study day, the health care worker will:

- have been introduced to the nature of autism and its spectrum
- have discussed the triad of impairments and considered ways to work with them
- have a raised awareness of ways to work with people with autism and their families

## **Target Group:**

Care support workers who wish to develop their understanding of Autism

## **Duration:**

One day

## **Key Contact:**
